

# Progress Report # 5

Date: April 6, 2025

Prepared by: Charlie Medialdea (300374504)

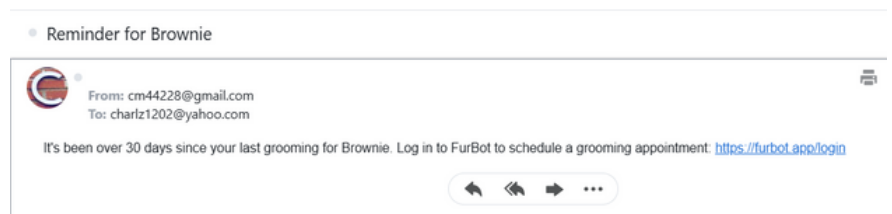

## Sprint 8 - (March 31 - April 6)

As we discussed during our last check-in, I've implemented additional features to enhance the app's novelty and personalization. These include:

- Proactive reminder for users e.g. based on the last grooming date (30 days), it will search users last grooming date for a pet and if it is greater than 30 days, it will send email reminder to user to schedule pet grooming.

The screenshot shows the 'Pet Profile' screen. At the top, there's a header with a paw icon and the text 'Pet Profile'. Below this is a white card containing a dog icon, the name 'Brownie', and details: 'Species: Dog', 'Breed: Golden Retriever', 'Color: Brown', 'Birthdate: 2020-01-10', and 'Age: 5'. A red 'Delete Pet' button is at the bottom right of the card. Below the card, there are two sections: '+ Add Reminder' and 'Reminders'. The 'Add Reminder' section has a date input field (dd-yyy), a 'Reminder Type' dropdown (e.g., Vet Visit, Vaccine), a 'Notes (optional)' text area, and a green 'Add Reminder' button. The 'Reminders' section shows a reminder card with 'Type: Grooming', 'Date: 2025-02-05', and 'Notes: Grooming at PetSmart', with a red 'Delete' button. At the bottom, there is a blue 'Back to Dashboard' button.

# Progress Report # 5

- In the Yelp chat results, I've added a favorite button that allows users to save a business or result to their favorites.

The screenshot displays the FurBot web application interface. On the left, the main content area has a light green background. At the top left is the FurBot logo. Below it, a green banner says "Welcome to FurBot" with the subtitle "Your friendly pet assistant is ready to help!". Underneath is a "Saved Favorites" section with two entries: "Paw Prints Grooming Salon" (3.9 rating, 2635 4th Avenue W) and "Bosley's" (3 rating, 1005 Denman St), each with a red "Remove" button. Below that is a "My Pet List" section with a form to "Add a New Pet". The form includes fields for Pet Name, Species, dd-mm-yyyy, Color, and Breed, along with an "Add Pet" button. A filter dropdown is set to "All Pets". On the right, a "FurBot Chat" window is open, showing search results for "Find groomers near me". The results list five businesses: "Pet Parlour" (4.3 rating, 3457 Cambie Street), "Zoom Groom Mobile Grooming" (5 rating), "Moving Dog Spa" (4.4 rating), "Baby D's Home" (5 rating, 29 W Broadway), and "Polka Dog Spa" (5 rating, 1866 W 57th Avenue). Each entry has an orange "Add to Favorites" button. At the bottom of the chat window is a text input field "Ask FurBot..." and a blue "Send" button.
